Gen. Juan Andres Alamazan, in command of Federal forces in front of Tehuacan, is engaged in a fierce battle with the rebels, who are said to be commanded by Gen. Fortunato Mayostte and Gen. Cesare Lopes.

Participating in the attacks upon Vera Cruz as a part of the 12,000 troops under command of Eugenio Martinez are 2000 Yaqui Indians, headed by a tribal chieftan, Juan Dominguez, radio advices state. The Yaquis were brought from the Sonora mountains and are being used as shock troops against the rebels, who already have retired to prepared positions more capable of being defended against the fisrce attack of the Federal troops. The attack on Vera Cruz is being carried dut along the line of the Inter-Oceanic Railway.

Senator Couzens took Mr. Mellon to task again for his recommendations for surtax reduction, while the Wisconsin Representative ridiculed his views on the tax-exempt securities question.

Representative Frear said he was not surprised that Mr. Mellon disagreed with his proposal for taxing existing municipal and State bonds. The Wisconsin Representative believes it useless to approach the question through the adoption of a constitutional amendment, the method favored by the Ways and Means Committee. Instead, he prefers the passage of a bill specifically providing that the Sixteenth Amendment shall cover income securities now tax-exempt, and stipulating that such a law. If enacted, shall not be declared unconstitutional unless at least all but one of the Supreme Court justices so decide.

Refutes Charge on Contract · to Fuller Company

Files Evidence With Senate Veterans' Committee

IBY A. P. MIGHT WIRE!

WASHINGTON, Jan. 10.—

Charles R. Forbes, former director of the Veterans' Bureau, through his counsel, James S. Easby-Smith, obtained permission today from the Senate Veterans' Committee to file memoranda in reply to certain statements concerning Forbes made in the report to the committee by its general counsel, John F. O'Ryan of New York.

The first of the memoranda, filed today, relates to the award of the contract for the construction of the hospital at Northampton, Mass., to the George A. Fuller Construction Company on its revised bid of \$2,117,690.

PONTIAC RID TOO HIGH

PONTIAC BID TOO HIGH

PONTIAC BID TOO HIGH

The Pontiac Construction Company of Detroit, Mich., which was represented here by Elias H. Mortimer, State's witness against Forbes, obtained the contract for constructing the foundation for this hospital. O'Ryan, in his report, said the Pontiac Company also sought the contract for the superstructure, but its bid was very high and all bids were rejected because they were too high.

According to the O'Ryan report this happened before Forbes and Mortimer had their break on September 26, 1922, and that in October, 1922, after the break, Forbes awarded the contract to the Fuller company, which was the original low bidder.

PRESENTS EVIDENCE

Mr. Easby-Smith presented letters signed by Forbes and Capt. P. Charles Starr of the Army Quartermaster Corps, which handled the hospital work for the Veterans' Bureau as well as extracts from Capt. Starr's diary, which show that the bids actually were not rejected until seven days after the break between Forbes and Mortimer, and that then the Veterans' Bureau as well as extracts from Capt. Starr's diary, which show that the bids actually were not rejected until seven days after the break between Forbes and Mortimer, and that then the Veterans' Bureau as well as extracts from Capt. Starr's diary, which show that the bids actually were not rejected until seven days after the break between Forbes and Mortimer, and that then the Veterans' Bureau as well as extracts from Capt. Starr's diary, which show that the Forbes did not sign the contract ton September 28, 1922, but that Forbes did not sign the contract until October, as he was absent from Washington.

(EXCLUSIVE DISPATCH)
PHOENIX, Jan. 10.—County At-PHOENIX, Jan. 10.—County Attorney Cunningham today issued a statement that the State has completed what is considered a clear case against W. B. Ward in connection with the murder of Mrs. Baudreau in this city last November, but will hold off till determination of the case against Ward in Gila county, where he is accused of the murder of Ted Groah. December 26, 1923.

Ward, now held in the penttentiary at Florence, has been arraigned. It was considered unsafe to take him into Globe, on account of fear of lynching.

It is told that Ward himself has made statements connecting him with the Baudreau case.

His Road's Approval

(BY A. P. NIGHT WIRE) WASHINGTON, Jan. 10.—Westwashington, Jan. 10.—Western aspects of general railroad consolidation proposals came up today for Interstate Commerce Commission consideration when the divergence between commission proposals and views of managements of the Hill group of railroads as to disposition to be made of the Chicago. Burlington and Quincy, Northern Pacific and Great Northern roads was elaborated by counsel in legal arguments.

H. A. Scandrett, speaking for the Union Pacific, however, expressed qualified satisfaction with the consolidation suggestions affecting the present situation, to give up their light and engage in some legitimate business.

porations in the western half of the continent.

Mr. Scandrett contended that the greater grouping suggested under the Holden plan would be too large and unwieldy. The Union Pacific, he explained, preferred to hold its present extensive system, and accept only the Chicago and Northwestern, as proposed tentatively by the commission.

For the Northern Pacific and Great Northern, the division from the Burlington was sharply opposed. Both Walker D. Hines, former director-general of railroads and C. W. Bunn, the general counsel of the Great Northern in turn urged, however, that it separation could not be avoided, the road they represented should be allowed to keep the Burlington.

HINES RESTS ARGUMENT HINES RESTS ARGUMENT

Mr. Hines rested his argument for the advisability of joining the Burlington and Great Northern on the claim that increased efficiency would result. The junction of the Great Northern with the Chicago, Milwaukee and St. Paul, which the commission has proposed, he declared, would damage the Great Northern more than the Northern Pacific.

The Sheriff's statement was made early tonight shortly after he had issued ultimatum to alleged bootleggers, whose activities are said to have resulted in the present situation, to give up their illicit traine, and engage in some legitimate business.

dualified satisfaction with the consolidation suggestions affecting that system.

Bruce Scott of counsel for the Burlington, urged the retention of the three northwestern railroads now associated in stock ownership as one unit, with even scener fusing of interest. The Northern Pacific and Great Northern should be considered one system with it, he agreed, asserting that by allowing the Colorado and Southern, a Burlington subsidiary, to come into complete association, a giant system could be built up reaching from the Pacific to Chicago and from the Canadian border to the Guif of Mexico.

Federal Officials Say the Hollywood Dope Ring is Rounded Up

(EXCLUSIVE DISPATCE)
CALEXICO, Jan. 10.—In what Federal officials believe' to be a round-up of a Hollywood drug ring, H. W. Miller, averred to be a mining engineer and to have his residence in Los Angeles; Miss Ruth Dippel, who gives her vocation as a nurse, but who looks like a motion-picture heroine, and a chauffeur. Harry Warren, were arrested here today.

In their possession was found a wholesale quantity of morphine, heroin, cocaine, marihuana, whisky, hypodermic syringes and needles.

and Miss Dippel in \$2500.

Dr. Edward H. Anthony said last night he knew Miller slightly as a mining man. Miller, he said, had come to him and explained that he feared another hemorrhage of the lungs; that he was a victim of tuberculosis in an advance stage, and that he wished to carry with him a hypodermic of morphine to allay the pain should the attack occur. Dr. Anthony said he gave Miller a letter for that purpose only. He hasn't heard from him since that time.

During the afternoon statements were given out by a number of the A.A.d. drivers to the effect that their sympathy was with the Ascot plant. Tommy Milton poured out a tale of woe and several close students of the motor-racing game predict that none need be surprised at the flopping to Ascot of any one or more of the big stare. Eddie Myers of Redlands, who holds the official dirt-track records up to fifteen miles for America. Harry Hooker, Fred Frame, Forrestine Froehlick, John Kemp and Reggie Lyons were among the entries. The list totaled thirty-seven last night, this being five more cars than have ever been entered in a speedway meet in America, the Indianapolis record being thirty-two nominations. President Bentel announced last night that fully fifty dare-devils would face the starter on opening day. A number of the cars entered are 133 and 300-cubic-inch speedway motors placed on the shelf when the 122-inch rule went into effect. All are ideal for dirt-speedway racing.

G. Huff Dorward, vice-chairman of the International Motor Con-

test Association here to supervise the Ascot races for his organization, was busy during the afternoon with Charles H. Branaman, who will act as Coast representative of the association when Dorward returns East.

Fred Horey, eastern dirt-track champion, wired Bentel from Albuquerque that he is delighted that Ralph DePalma will participate in the Ascot opening meet. "Two been after that bird for ten years and will have my first chance at him at Ascot," he chirped over the wire.

La Barba Puts It on Taylor in Easy Style

Fidel La Barba is still about the niftiest fighter of his weight in this section of the woods or any other section. At the L.A.A.C. amateur boxing houts last night, Fidel kept up his high standard of work by gaining a technical knockout over Cecil Taylor. La Barba had his man all but out in the third session. Taylor took a soild lacing, his phis being turned upside down by Fidel's sturdy mitts.

Mannie Kaplan scored a technical knockout over Rex Hamilton in the third round. Billy Zukle won the decision over Wilfred Parker but the spectators didn't take kindly to the judges' decision and gave loud vent to their disapproval. Johnny Barry took the decision from Oscar Finn. August Gotto kayoed Bob Urquhart in the second round with a terrific body punch. Joe Salas grabbed the verdict over Kid Lonelli. The showing of Lonelli was the real surprise of the night's entertainment. Joe started in to put his man away quickly in the opening round, backing the Kid all over the ring time and time again. Lonelli finally pulled himself together and caught Salas a beauty on the chin, flooring him. Joe took the count of four. In the next two rounds, how-ever, Ralas piled up enough lead to offset the advantage of the knockdown.

The hot stove league blew the top off the thermometer yesterday and filled the basebail atmosphere with red-hot rumors steam-heated arguments and hard-boiled language. Old lady baseball was so busted out with gossip that she looked like a blonde with hives. The arrival in town of Bill Lane of Salt Lake, generalisation of the Big Five forces which aunk Bill McCarthy without a trace off Catalina last fall, was a signal for everybody to get busy and start some kind of a yarn connected with the gentle pastime of worrying the umpires.

The spring training senson got off to an auspicious start in the afternoon, with the departure for Long Beach of a delegation of moguls from the Los Angeles club, who participated in the unveiling of the home plate at the new ball park where the Angels are to train. Oscar Reichow, Boots Weber and Groundkeeper Ed Schallmo were in charge of the ceremonies, and squinted their expert eyes down the imaginary base lines on which the Cherubs are to cavort next month.

demands, he said, and their assistance will be needed in all lines of activity.

"The American Association of Railway Executives" he said, "and the American Railway Association are organizing committees who will help us to plan for the orderly and expeditious transportation of material and supplies in the next war. The American Telephone and Telegranh Company is working ou plans for the mobilization of its system. The Iron and Steel Institute attended the ordnance meeting and through its president, Judge Gary, assured the government of full co-operation."

"The ordnance, air service, corps of engineers and other procuring services will need engineers; the artillery will have its demands and even the infantry will need trained engineers. I most earnostly urge the Federated American Engineering Society to aid us in this problem of personnel by appointing a committee to co-operate with my office in solving it."

(BY A. P. MIGHT WIRE)
NEW YORK, Jan. 10.—For the first time since last March, the unfilled orders of the United States Steel Corporation today showed an increase over the preceding month, the 4,445,339 tons of unfilled business on the books as of December 31, being 76,755 tons above that at the end of the preceding month. In steel circles this was construed as direct proof of the improvement that has taken place in the industry in the last six weeks.

Drastic Amendment Proposed to Transportation and Valuation Acts by La Follette

[BY A. P. NIGHT WIRE]

WASHINGTON, Jan. 10 .- Drastic amendment of the transportation and railroad valuation acts was proposed today in the Senate by Senator La Foliette of Wisconsin, leader of Republican insurgent bloc, and the man who yesterday brought about the election of Ellison D. Smith, a South Carolina Democrat, as chairman of the Interstate Com-

smith, a South Carolina Democrat, as chairman of the Interstate Commerce Committee.

PROMISED SANITY

At the same time Chairman Smith stated that he would call the committee together within a few days and that it would handle railroad legislation "sanely and in the manner the people will want their representatives in Congress to handle it." He will make a statement tomorrow further outlining his views.

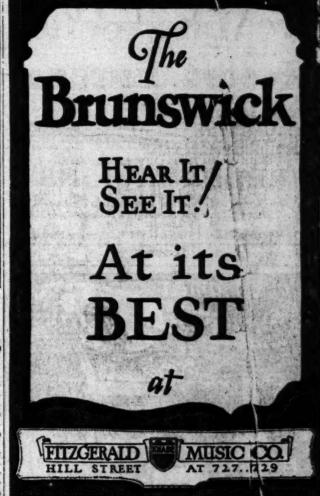

The makeup of the committee was completed today with the formal confirmation by the Senate of the selection as a member of Albert B. Cummins of Iowa, who was deposed yesterday as chairman. Some Senators had questioned the right of Senator Cummins to a place on the committee in view of the Senate vote against him

EERLIN, Jan. 10.—Plans for a new Separatist putsch in the Reich and setting up a new independent government there were disclosed to the German Cabinet at its session this afternoon when the question of the murder of five Separatist leaders at Speyer was discussed. It was declared that the Separatists were assured of the full support of the French military authorities. The Cabinet, while deploring the murders, took the stand that it cannot forbid the population of the Palatinate from defending itself against the rebellious acts of the treasonable Separatist pletters.

In declaring that the murders were the result of quarrels between the Separatist hemselves and not the act of loyal Germans. They point out the responsibility of Gen. Demets and the French authorities for the deed, since the French, by their protection, encouraged the Separatist alms.

TO MAINTAIN PRICES NEW HONOLULU BANK

10.—Sentiment of manufacturers pany, Ltd., of Honolulu is open in the winter furniture market is for business. A. Lewis, Jr., is presin the winter furniture market is said to be against any guarantee of a decline in prices.

Eastern buyers are reported to have expected a general reduction in the price of furniture and have been slow to start making purchases. The opinion among the manufacturers is that the prices are as low as they can be to allow a fair margin of profit and there is no likelihood of any reduction for some time, they say.

Manufacturers say not a few retailers have yet to make their prices coincide with the reductions already made by the manufacturers.

Representatives of the National Furniture Conference, the National Retail Furniture Association and manufacturers have met to consider objections raised by the dealers to the open showroom and formation of a trades-relation committee who shall ask the Department of Commerce for a survey of the furniture industry to determine means of eliminating waste and thus reduce the price of furnitures in return, the manufacturers pressed their petition that orders should be made equivalent to a contract which cannot be broken at will. The National Retail Furniture Association has assented to the proposal.

Standard Gas and Electric Company

Dated January 1, 1924

Convertible 61/2% Gold Debentures Due January 1, 1954 Redeemable as a whole or in part at any time before maturity, upon 30 days' published notice: At 105 on or before December 31, 1933; then reducing 1% for each subsequent five years, or fraction thereof, until July 1, 1953, and on or after July 1, 1953, at 100½, plus accrued interest in each case.

CONTINENTAL AND COMMERCIAL TRUST AND SAVINGS BANK, CHICAGO, TRUSTEE. The official letter of Mr. Arthur S. Huey, vice-president of the company, has been summarized as follows:

Company: Standard Gas and Electric Company and its operated public utility companies comprise one of the large public utility organizations in the United States, embracing the operation, management and engineering of utility properties. The operated companies serve important centers, including Minneapolis, St. Paul, Louisville, Oklahoma City, Muskogee, Pueblo, Sioux Falls, Mobile, Tacoma, San Diego and Stockton, furnishing service for over 820 communities having a total estimated population of more than 2,725,000, in 16 states. Approximately 84 per cent of the net earnings of the operated utility companies is received from the sale of electric energy.

Earnings: Net revenue for the 12 months ended December 31, 1923, was over 2 1-4 times the annual interest requirements on the total funded debt of the company, including this issue, to be outstanding upon completion of present financing. Net revenue for each year of the five-year period ended December 31, 1923, was in excess of 2 1-4 times the interest requirements for these respective years on the entire interest-bearing debt of the company.

Equity: Funded debt of the company, including this issue of debentures, will take precedence, as to assets and earnings, over \$16,258,100, par value, preferred cumulative stock paying regular cash dividends at the rate of 8% per annum, and 212,000 shares of common stock (without par value) paying cash dividends at the rate of \$2.50 a share per annum. The present market value of these stocks is in excess of \$22,-500,000. Purpose of Issue: Proceeds from the sale of the sale of these \$10,500,000 convertible 6½% gold debentures will be used to provide funds for the redemption of \$4,500,500 of 7% bonds and notes and \$2,695,000 of 7½% bonds now outstanding, and the acquisition of a controlling interest in Coast Valleys Gas and Electric Company.

Convertibility: These debentures may, at the option of the holder, be converted after June 1, 1924, and on or before January 1, 1934, at par, into shares of the present class of common stock (without par value) of the company, as constituted at the time of conversion, at the following prices, with adjustment of accrued interest and accrued dividends:

To and including January 1, 1927, \$37.50 a share; thereafter to and including January 1, 1930, \$42.50 a share; thereafter to and including January 1, 1934, \$50.00 a share.

Any debentures which may be called for redemption on or before January 1, 1934, shall be convertible until twenty days prior to the redemption date.

Cash dividends are being paid at the rate of \$2.50 a share per annum on the outstanding common stock (without par value.) For the 12 months ended December 31, 1923, the company earned over \$7.75 a share upon its outstanding common stock, and on the basis of including its proportion of the earnings retained for surplus and reserves by the companies in which it has investments, the company earned over \$16 a share upon its outstanding common stock. The common and preferred stocks are listed on the Chicago Stock Exchange and it is expected that in the near future application will be made to list the common stock on the New York Stock Exchange.

We offer these debentures for delivery when, as and if issued and received by us, subject to approval of our counsel. Price 931/2 and Interest, to Yield 7%

Precious Stones Eagerly Abscribed by Consumers in United States

Diamonds imported into the United States in the calendar year 1923 exceeded those of any year except 1915. The total value of diamonds of all classes imported in the ten months of 1922 for which figures are available is, according to the trade report of the National City Bank of New York, 352,000,000, and should the figures for the months of November and December equal those of October they would bring the year's total to about \$65,000,000 for the diamonds alone while if pearls and

this entire group, totaling slightly more than \$50,000,000 in 1923.

Pearls too have greatly increased in popularity and added largely to the total of the group "precious stones." It was only in 1911 that the importance to give them a special classification in the monthly statements of imports issued by the Department of Commerce. The total value of "pearls not strung or set" imported has aggregated about \$60,000,000 since 1914, and in the closing year 1923 seems likely to aggregate nearly. \$10,000,000, the total importation of pearls in the ten months ending with October, 1923, having been \$7,127,000.

While a very large proportion of the diamond imports are the product of African mines, most of them reach us from Europe, especially those which come in condition ready for settling.

That the "precious stone habit" is a growing one with the people of this country is indicated by figures which show that the total imports of "precious stones" of all classes have grown from \$15,000,000 in the fiscal year 1900 to \$24, which increased 1½ points. The oils were irregular, and the price movements were of little importance of "precious stones" of all classes have grown from \$15,000,000 in the calendar year 1915. With the slowing down of business and industry which followed the close of the war the imports of precious stones dropped to \$16,000,000 in 1920, and \$35,000,000 in 1921, but with the revival of business and industry the imports again advanced; \$65,000,000 in 1921, but with the revival of business and industry the imports again advanced; \$65,000,000 in 1922, and as above indicated will be about \$25,000,000 in the calendar year 1923.

Diamonds of course form the bulk of the group of "precious stones" imported, and the subgroup "diamonds cut but not set" is the most important factor in this entire group, totaling slightly more than \$55,000,000 in 1922.

welloped a neavier tendency in the dark rading period and had declined 3 to 7 points shortly after noon. Steady conditions prevailed in the late afternoon and at the close the market was within a point or two of the best of the day. Sales amounted to 22,500 tons including switches from March to September at differences of 18 and 14 repulser yellow.

May at 25 and March to May at 10 points.

Refiners quoting 8.60 cents a pound were reported to be receiving a fair amount of business Arbuckle Brothers quoted 8.25 cents ing a fair amount of business Arbuckle Brothers quoted 8.25 cents shipment on or before the 27th inst. while Federal quoted 8.25 cents but only for certain grades. Great Western was quoting 8.05 cents seaboard basis east and west of Chicago and to the Rocky Mountains while the California and Hawaiian quoted 8.25 cents in competitive territory and 8.45 cents in the Rocky Mountain States.

COFFEE MARKET

The coffee futures market on call was up 4 to 20 points on short covering induced by climbing exchange rates and a general advance in cost and freight offers. The advance later amounted to 15 to 24 points net.

The net was 1 lower to 6 points higher. Sales were estimated at 54,500 bags including May to December switches at 43 and 44 points net difference.

The undertone of the rice market was reported as firm. Offers are only limited in the South. Foreigns are still quite scarce.

Better buying in the wholesale tea market is seen for the account of western consumers. The higher prices put through for Indian and Ceylon teas during the past week in the London markets were favorably regarded in local distributing circles.

Holders of choice grades of domestic beans are refusing to cut prices. The best inquiry appears to be for small whites, and cartons are wanted in many orders from chain stores. Lima beans are firm and well controlled.

NEW YORK, Jan. 10.—Germany's only hopes are "Hell and Maria" Dawes, American representative on the Reparations Commission, and the prospects for a foreign loan for food for her starving people, said Count Harry Kessler, who arrived today on the Majestic. Count Kessler created wide discussion of his presentation of German economic problems before the Institute of Politics at Williamstown, Mass., last summer.

TIPS FOR TAXPAYERS

No. 8

Salaried persons and wage earners form by far the largest class of taxpayers. In their interest, Form 1040A heretofore used for filing returns of net income of \$5000 and less from whatever source derived, this year is used for reporting net income of not more than \$5000 derived chiefly from salaries and wages.

Compensation in any form for personal service rendered" is subject to the income tax. This includes salaries, wages, fees, commissions, bonuses and pensions, and tips. Salaries paid by a State or political subdivision thereof to its employees are not taxable, the reason being that the Federal government does not tax the instrumentalities of a State.

The exemption does not apply to salaries paid by the Federal government, except that a Federal income tax may not be levied on the salaries of the President of the United States or Federal judges which would diminish the salaries that were in effect at the time they took office. This provision does not exempt from taxation the salary of the President of the United States or Federal judges which would increase the trees of taxation, such increase would not apply to the salaries payable at the time the oath was taken.

Fees received by a notary public commissioned by a State are not taxable nor are fees paid jurors by a State. Witnesses in lawsuits, even through summoned by a State, autorney, are not considered employees of a State, and fees received by them are subject to taxation.

A week? A month? A year? If you've been here a year and haven't made your share of the real estate money you haven't had the capital to invest or else YOU'VE NFGLECTED THE BIGGEST PROFITMAKING OPPORTUNITY IN THE UNITED STATES TODAY!

If you've been here only a short time no doubt you are looking for a chance to get in on the ground floor of one of these big real estate deals. Here it is:

This month we start selling land in our new 3000-acre city, Southern California's greatest 1924 project.

The land is worth at wholesale at least

It will sell under subdivision from \$3,000,000 to \$6,000,000.

Six hundred acres of it is now in citrus fruit, full bearing, and paying a handsome

We are organizing the syndicate for the development and sale of this vast 3000-acre property, some of the finest land in California.

It takes very little logic to see what the profits will be. Get into this syndicate new. YOUR MONEY IS SAFEGUARDED the syndicate members get theirs back out of the first money taken in, and sales start AT ONCE. It should be quick, sure and big profit! The syndicate is closing up fast. Scores of big and small investors are getting details from me in the last three days that the syndicate has been on the market. It won't stav open long. See me today or phone or write at once for full confidential details!

New Music for the

Someone has remarked of the amazement the early composers would feel to hear their works performed by a modern symphony orchestra. Equally interesting is it to us to hear some of their works played on the only instruments then at their disposal. Wanda Landowska's interpretation of the harpsichord, precursor of the plane, has been a sensation, and we have just heard the famous Polish player's first record of her work. Her instrument has two keyboards, a multiplicity of pedials, and the tone is from strings plucked by quills. Now you can hear Hande's "Harmonious Blacksmith" and Mozart's "Turkish March" exactly as the composers themselves heard them, generations ago.

A great orchestra playing a great orchest orchestra playing

"In asking for the sum of \$3,000,000 to carry on our work," and Dr. Johnson, "it is in the belief that the cultural growth of Los Angeles is just as insportant as our industrial growth. You cannot build a city on industry alone and expect to hold the people who come here. The city must be made attractive from an educational and eultural point of view. There have been cities in the East where the industrial development has been beyond the most extravagant dreams of avarice. But the cultural development was neglected. They were uninteresting and unattractive places to live in. Hence the people left these places as soon as they made their money. We must not let this happen in Los Angeles, and it is the purpose of the Southwest Museum to see that this does not happen."

OFFICERS RETAINED

OFFICERS RETAINED

The Southwest Museum, while a private institution depending for its support upon donations and membership fees, is open to the public free. Two of its great attractions to the public, outside of the remarkable collections from the fields of science, art, literatura and music are the Sunday afterneon lectures open to the public free of charge, and Saturday morning children's hour. An idea of the scope of the work carried on by the museum in reaching the younger generation is gained from reports showing that the past year 107 classes with their teachers, a total of 300c children, visited the museum. The Saturday children's hour gave forty programs attended by 590s children. This record does not take into account the large number of children who attended without their teachers.

The Sunday programs and extra lectures given during the week days totaled fifty-five. Twenty-five lectures were given to clubs outside the museum, seven clubs are now affiliated with the museum, all of which hold regular meetings. The museum, which is located at Marmion Way and Avenue 46 on a magnificent hillitop site, has cost to date about \$1.500,000 in buildings, collections and land. As part of yesterday's meeting of the board of directors plans for the coming year were discussed and the officers who served during the past year were e-elected as follo vs. President, Dr. Mitbank Johnson; vice-presidents, Joseph Scott, Mrs. Agnec C. Bernardino had been unequally disposed of among the helrs, Mrs. Alberlia Dollie Bouterious and William T. Satterwhite, an examiner for the State Railroad Commission in Oakland, yesterday filed separate contests of the will of their mother, the late Mrs. Mary A. McDonald, who died December 17, 1923.

Both contestants based their suits on allegations that Walter Satterwhite, another son, had received more than a proper share of the estate. He also was charged with exerting an undue influence over his mother.

Dr. Reginald E. McDonald, the surviving husband, was left \$5 under the terms of his wife's will, while the remainder of the property was apportioned among three sons and the daughter.

Mrs. Bouterious set forth the following estimates of value of the specific bequests: \$18,000 to Walliam than Mrs. McDonald was incompetent at the time the document was executed.

WIFE ACCUSES MATE

OF CUTTING OFF HAIR

Mrs. Letha M. Mackey yesterday told Judge Summerfield of an unfortunate arrest for a burned out automobile headlight which lost her husband, Frankling Mackey, and a mass of long golden hair. "When I asked my husband for the money to pay the fine he told me I ought to go to jail." she said, "and when I came home he flew into a rage and beat me up and took a pair of scissors and cut off my hair." She was granted a decree.

In conclusion it asks that measures be taken to permanently recedit upon the city.

Section 2 asks for an abatement to be effective during the course of the hearing, by the terms of which no more prisoners are to be sent to the Lincoln Heights Jail until such time as a permanent im-provement is ordered or the suit is dropped.

sent to the Lincoln Heights Jali until such time as a permanent improvement is ordered or the suit is dropped.

The personal observations of investigators are included in the paper with full descriptions of the poor conditions. Statements of the inadequate facilities include a description of the washrooms, diningroums and sleeping quarters.

Provided for 750 men according to the complaint, two wash basins, two tubs and seven showers are of so little benefit that many prisoners have no chance to keep clean. No facilities are provided for disinfection or delousing and prisoners enter, serve their time and depart with no precautions having been taken to prevent their spreading or catching a disease.

The sewage conditions, they say, are so poor that sacks must be stuffed in the vents running through the cells to prevent the flooding of the prison.

Affidavits of Asa Keyes, District Attorney, County Health Officer Pomeroy and several members of the grand jury are attached to the paper. They testify te the truth of the allegations set forth in the complaint and urge some immediate action.

Dashing into the apartment they found a dozen persons seated about a table. Fragments of several bottles were on the floor.

Officer Berraweig attempted to grab a bottle which, he says, Richardson was trying to break and in the scuffe Richardson's hands were painfully cut by broken glass. The police removed a pipe from the kitchen sink and drained several ounces of asserted limor which was held as evidence.

Freight; Woman Killed at Pasadena Nearly fifty passengers were injured last night, at least two seriously, when a Pacific Electric Torrance-bound car sideswiped a freight car standing at a siding at Torrance. The passenger car was rounding a curve when Motorman Thomas Porter sighted the freight car. He was unable to stop quickly enough and the crash resulted.

Most of the injured were cut by flying glass and splinters. It was reported a few persons sustained broken legs or arms.

Proposed plans for the organisation of all communities interested in the development of the entire district south of Sl. uson avenue met with a hearty reception from more than 200 residents at a mass meeting at the Sixty-sixth-street school last night. The plans call for the organization of the various communities into a Los Angeles-to-the-Harbor Association.

L. J. Coburn, president of the Pioneer Pacific Worsted Company, presided at the meeting. In outlining the plans for organization Mr. Coburn stressed the vital necessity of uniform enthusiastic co-operation on the part of all individuals and communities interested in the development of the entire district. His remarks received the indersement of those at the meeting. Other speakers included H. B. Gardner, business associate with Mr. Coburn. Willis Owen of the Central Manufacturing District, and others.

The proposed organization plans call for a board of directors of nineteen members, one each from the several communities, and several communities interested in the district within the next few weeks.

A second meeting will be held tonight's meeting was one of a series to be given throughout the district within the next few weeks.

A second meeting will be held tonight at the South Park school, South Park and Manchester avenues.

Now as to Rates!

HAT is there in the broad claims made, on be half of a muncipally owned and politically oper ated electric monopoly, of lower rates to be enjo ed under the system of unregulated monopoly?

Let us see.

For two years and nine months before April 11, 1917, when the Bureau of Power and Light began to distribute electricity, the base rate for electric lighting service under corporate manage ment and commission control was 51/2 cents per kilowatt hour. The Bureau introduced a base rate just 1/2 cent lower than the rate being charged by the corporations.

Of course the Bureau had no data on which to base a scientific rate; but why was that particular lar rate adopted? Was it mere coincid a fair electric rate should have been w cent of the rate then being charged by the cor-porations? If the corporations had been charging 9 cents would the Bureau have charged 81/2 cents? Or if the corporate rate had been 3 cents would the Bureau's rate have been 21/2 cents?

In other words, does anyone believe that the Bureau's rate was fixed with a view to be ting the consumer, or was it established for the purpose of creating a "talking point?"

And what would the rate have been had there been no competition?

> Our next statement will show the the rate for electric lighting service in Los Angeles is higher today than it was before the Bureau of Power and Light entered the field.

VIVID VOCAL ART SERHARDY ALLURES WITH INTERPRETIVE POWER

By Edwin Schallert

Not all singing is for the voice; some of it is for the heart and the mind, and in this respect the art of Elena Gerhardt, who was heard tast night at Philharmonic Auditorium, was a revelation of beauty and of power. Given another season of concerts before the American public, and I predict she will be reckoned not only one of the foremost interpreters, but one of the most popular as well. The grandeur of the contrasts that she vocally achieves, the wealth of her authority and style, and the sympathy and feeling that the brings to her renditions endow her with a certain fine pre-eminence in the rectal field.

The last time that I heard Miss Gerhardt, as I recall it, was about seven years ago. She has attained a growing vogue with the musical since then, and she herself has developed far beyond the bounds and limitations that were hers at that time. Chiefly, I believe she manifests a greater initiative in her art.

First and last, she is what you
